How much will that post cost you?

DISCOVER HOW TO PROTECT YOUR PRACTICE AND CLIENTS

What is Social Media?

This webinar will cover an overview of growing social trends, along with discussion of private versus public information, and how social media blurs the lines. We will consider the risks associated with social networking and if your clients are in danger.

Public Pitfalls and Poor Judgment

What makes social networking different: A look at some publicly poor decisions made through social media and what it could cost you.

Ethical Considerations

We will review some of the guidelines in place from governing bodies such as the Law Society of Ontario and other provincial societies.

Online Tools & Resources

Keep aware of new developments with a look at websites, blogs, podcasts and publications that are both free and powerful resources.

Evidence and Social Media

What to consider in your discovery plan? We'll discuss ways to capture web evidence correctly, the importance of defensibility (including preservation, authentication and chain of custody), privacy examination and avoiding spoliation.

Social Media Policies

Important things to consider when developing a social media policy, with a look at some law firm and Fortune 500 company examples.

Jurors, Social Media, Judges and Mistrials

How to avoid the dreaded social networking mistrial, staying PIPEDA compliant, and cautions in friending a court official.
